## "The Flag Overhead"

Poem by a visitor to Honolulu attracted by the plans for Baby Week.

"Baby Week" in Honolulu is attracting wide attention, not only among the people of the city but among visitors. One of them is Dr. W. W. Pennell of Mount Vernon, Ohio, a prominent physician of his section of the country and an active citizen. He has been president of the board of education and of the medical society. Dr. Pennell is now visiting in Honolulu. Attracted by the plan of "Baby Week" promoters to have an American flag floating from every house where there is a child under five, Dr. Pennell has written the following spirited and striking poem:

The crisis had passed and the battle was won,  
The flag overhead in the breeze!  
But mother kept vigil while baby slept on.  
The flag overhead in the breeze!  
The heart of the mother could scarcely avoid  
The longings that came to bow her head low,  
Since science and art had conjoined to destroy  
The scourge that had threatened with all of its woe;  
For luminous faces appeared in the air,  
And whispers familiar arose to her ear,  
As out of the past, to rejoice with her there,  
The babes that it held came lovingly near;  
Alone with the babes of the past she communed,  
As watching and waiting she sat by the cot,  
Her heart to the life that was flowing attuned,  
Her soul in its sadness to those that were not;  
With flag overhead in the breeze!

The Nation hath need that its babies' highway,  
With flag overhead in the breeze!  
Shall lead them in safety through babyhood's day,  
With flag overhead in the breeze!  
To years of a man, and the years of a maid,  
Both mentally sound and morally clean,  
With bodies intact and wills unafraid,  
To grapple their callings steadfastly, serene,  
In babes of today, and regardless of grain,  
Perceive all the actors in future affairs;  
There's fathers to teach, and there's mothers to train,  
To faithfully meet life's joys and its cares,  
The debt that we owe to the man of next year  
We cannot evade, though caviar we may;  
This man of the future is a brother, I fear,  
And we but the keepers preparing his way,  
With flag overhead in the breeze!

## ARMY & NAVY

**ANTI-AIRCRAFT  
GUNS WILL BE  
LOCATED HERE**

Six big 12-inch guns mounted for high angle fire, and a considerable number of anti-aircraft guns, all for Hawaii, are included in the report of Representative Swager Sherley of Kentucky on "Insular Possessions." The report was discussed in Washington recently by Brig.-gen. E. M. Weaver, before the house subcommittee on fortifications. The report says in part:

"For the insular possessions, estimates were submitted for the land defenses of Hawaii and the Philippines and allowed. Estimates were also submitted and allowed for mounting eight 12-inch guns with high angle fire and for 10 anti-aircraft guns, six of the 12-inch guns to be located in Hawaii and the remaining two in the Philippines.

"Estimates were submitted for \$1,700,000, with a contract authorization of \$500,000 for reserve ammunition for the insular possessions and allowed in its entirety. Provision was made and allowed for the completion of mine defenses in the insular possessions."

Gen. Weaver testified that the government had added to the fortifications in the Hawaiian Islands. He said:

"The chief feature is the introduction of high-angle fire long-range battery to reach far beyond the coast line so as to be able to assist the mobile army in repelling an attack of an enemy seeking to land in force from transports under cover of the fire of their warships.  
**Reach Long Distance.**

"A battery of those guns centrally located will be able to reach a long distance, quite a distance beyond the shore line, and to bring an effective fire against warships which otherwise might come in at close range and cover the landing of troops on the beaches."

### NATIONAL GUARD TO HOLD MASKED DANCE ON SATURDAY NIGHT

Posters are out announcing another of the benefit dances that are being held in the National Guard Armory to furnish funds for the enlisted men's clubrooms, this to be a masked ball on Saturday night.

These dances are becoming very popular with the dancing set and deserve special commendation for the high class and the good quality of crowds that attend them. It is felt by those in charge that while the admission fee is small, 50 cents for gentlemen and ladies free, it is sufficient to keep out undesirable persons who might otherwise come. Sgt. Bruce W. Shelton, sergeant-instructor for the guard, is in charge of the arrangements and says that he anticipates a good attendance.

### PEARL HARBOR RADIO TOWER NEARLY READY

Lacking only two top sections of 40 feet each, the big radio tower at the naval station, Pearl Harbor, which has been under construction for several weeks, is now practically completed. Two other towers exactly like this one are to be built, all three probably being completed by August. A firm in San Francisco is building the towers, which are similar to those already erected in San Diego, Cal., and Manila. The legs are 150 feet apart at the ground, gradually pointing together until approximately 30 feet apart at the top. The towers are 600 feet high.

**HUNDRED GUARD  
OFFICERS TAKE  
EXAMS IN MAY**

Though actual date for the annual officers' examinations has not been set at National Guard headquarters, it is stated that this will be some time in the latter part of May, the delay being made to allow the large number of new officers time to study for the questions.

In the local regiment the examination will be held by a board of examiners appointed by Brig.-gen. Samuel Johnson, but in the regiments on other islands the test is conducted by the battalion commanders. Answers handed in by applicants are then sent here for grading.

It is estimated that about 100 officers will take advantage of the examination period this year. The president of the board now is Lieut.-col. W. R. Riley, 1st Infantry.

On the other islands the examination is entirely a written one, but here it includes both written and oral work, with practical demonstrations by the officers as well.

The following promotion is announced for the information of all concerned: 2d Lieut. Richard L. Hughes, 4th Infantry, to be first lieutenant with rank from date thereof. Lieut. Hughes is assigned to the 4th Infantry and will report in person or in writing to his regimental commander for assignment and for duty. Lieut. Hughes will report to the officers' examining board to take the prescribed examination for the grade to which promoted at such time as the board may direct.

The following named enlisted men of Company F, 2d Infantry, will be honorably discharged by the commanding officer, 2d Infantry, on account of removal of residence:

Sgt. Bonifacio Pawil, Pvs. Juan Dacanay, Mariano Dacanay, Joseph Dacanay, A. de la Serna, A. Delameda, Garcia Alberto, Jabbob Feliciano, Patricia Elisidoro, Burnatory Basito, Demas Reyes, A. Escramoso, H. Besiro, Genaro Malapit, Cirilo Rozal, N. Sabremonte, Wm. Ahja.

Capt. Charles R. Bostwick, 1st Infantry, is relieved from assignment to that regiment, and detailed in the Quartermaster Corps. Capt. Bostwick will report in person to the quartermaster-general for duty as his assistant.

Pvt. George Gyton, Company F, 4th Infantry, will be honorably discharged by the commanding officer, 4th Infantry, by reason of removal of residence.

The senate military committee has decided not to attempt to reconcile its army bill with the House bill which already has passed the House but will report the Senate bill as a substitute.

**Sore Eyes**

Eyes inflamed by exposure to sun, dust and wind quickly relieved by **Marine Eye Remedy**. No Smarting, just Eye Comfort. At Your Drugist's 50c per Bottle. **Marine Eye Saline Tubes 25c.** For Sale at the Eye Remedy Co., Chicago or Marine Eye Remedy Co., Chicago.

# Truth and Trade

*By Bishop Warren A. Candler  
Chancellor of Emory University, Atlanta*

When a seller and a buyer have made a trade, based on truth, both have obtained a benefit, and the community to which they belong has been benefited insofar as their interests affect the welfare of the community. Each has parted with that which the other needed, and in turn has obtained from his fellow-men what he himself needed. Honest exchanges, therefore, enhance values.

But trades based on untruth damage all concerned. They approach dangerously near to theft.

By advertising, buyers and sellers are brought together, and truthful advertising promotes the welfare of the commercial world: it is, in fact, a part of the wealth-producing forces of the world. But untruthful advertising is a fraud and the fosterer of fraud. It partakes of the nature of the crime of getting money, or goods, under false pretenses. The medium of advertising, whatever its nature, which lends its columns to such advertising, accepts a bribe to become accessory to the same crime.

It is a far-reaching reform proposed by the Associated Advertising Clubs of the World in the motto "Truth". Such a sentiment must act like a health-laden current on the trade winds. Its influence will extend far beyond the limits of advertising, and stimulate honesty in all the processes and transactions of commerce.

The patron saints of the commercial world ought not to be Ananias and Sapphira. Lying spirits cannot guide safely the merchantmen of the world. The argosies of trade must sail by the pole-star of truth. Otherwise they will be wrecked.

This is one of a series to Advertise Advertising, by the Associated Advertising Clubs of the World (headquarters, Indianapolis). Write for booklet, written for buyers like yourself. Every man or woman who buys any kind of commodities will find it profitable reading.
